Lego Challenge

Data

The dataset for today gives details on `price` and other characteristics of 6172 Lego toy sets, including the number of `Pieces` and `Minifigures` inside and the `Year` they were created, as well as the `Name`, `Theme`, `Subtheme` and `Item_Number` of each set.

In case you don't know the joy of lego, below is a minifigure sitting on a vehicle made of lego bricks and pieces:

Your Challenge

Some analysis is shown below (without explanation).

- How many problems or errors can you find?
- For each one, do you have a suggestion as to how to fix it?
- *First, make a list of the problems/errors and brief ideas of how to fix. If you have time, start trying to implement some of your fixes.*
- **At the end of group work time, submit on Moodle a copy of your work.**
- **Hint: The solution will probably involve a GAM...maybe *with* random effects.**
